- Graphical Path Method / Netpoint Project Planning and Scheduling

QUALIFICATIONS

- Masters in Engineering Management, University of Technology Sydney, Australia
- Bachelor of Civil Engineering, University of New South Wales, Australia

Santosh is a certified Planning and Scheduling Professional (PSP) member of the Association for the Advancement of Cost Engineering International (AACEi)

OVERVIEW

Whilst holding an Engineering degree and Masters in Engineering Management, Santosh is a Planning and Time Controls Professional with 15 years of relevant experience in the engineering and construction sector.

Santosh is passionate about improving both the expectations and deliverables of Planning, Programming/Scheduling and Schedule Risk Analysis, for these skills to be a key component in an organisation's ability to meet its commercial objectives and reduce risk in delivering to these objectives.

Santosh's expertise includes the strategic development of business standards, assurance procedures, systems implementation and support, maturity assessments and knowledge management for Planning, Time Controls and Schedule Risk Analysis. Delivered using a top down approach in setting the minimum requirements and a bottom up approach in developing skills and providing support to the organisation in meeting those expectations.

Santosh has also been involved in the support, review and risk analyses of various complex, high risk and high value projects including:

- Road, Rail and Tunnelling Infrastructure development projects
- Hospitals, Airports, Casino and High Rise Buildings
- Process, Telecommunications and Mining Infrastructure

KEY PROJECTS

Santosh has been involved in a diverse range of engineering and construction projects across the Australian, Asian and Middle Eastern region and has directly been involved in complex large scale projects including:

- \$3.5bn Northwest Rail Operations, Trains & Stations (Sydney, AUS)
- \$2bn+ Westconnex M4 East Tender & Delivery Phases (Sydney, AUS)
- \$2.5bn City of Dreams Casino and Resort (Macau SAR, China)
- \$2.5bn 40km Eastlink Motorway (Melbourne, Australia)
- \$1.5bn 40km Westlink M7 Motorway (Sydney, Australia)
- \$1bn 800km Nextgen Fibre Optic network deployment (Australia Wide)
