

Frank A. Perricelli, PE (NY, NJ, TX), PSP

Senior Project Controls Manager - Associate Vice President - AECOM

125 Broad Street, New York, NY 10004

Adjunct Instructor – Manhattan College, Riverdale, NY

Mr. Perricelli has extensive and diversified experience in construction scheduling and delay analysis, and other project control practices. He is an Associate Vice President with AECOM Technical Services in New York City acting as a Senior Project Controls Manager leading a group of project controls engineers and schedulers. He is responsible for providing scheduling and claims avoidance services for a number of projects, ranging from highway and bridge projects to railroad, tunnel and facility projects. His experience ranges from planning and design scheduling to construction scheduling and analysis. His project experience is on a national level and includes the following projects:

- Statewide CPM Scheduling Consultant, New York State Department of Transportation, New York
- Statewide Scheduling Consultant, Texas Department of Transportation, Houston District
- Marquette Interchange Core, Wisconsin Department of Transportation, Milwaukee, Wisconsin
- Central Corridor Light Rail, METRO Green Line, Metropolitan Council, Minneapolis & St. Paul, MN

Mr. Perricelli has developed CPM training courses and documents for New York State Department of Transportation and Texas Department of Transportation. He is a licensed Professional Engineer in New York, New Jersey and Texas and a certified Planning and Scheduling Professional (PSP). He is an Adjunct Instructor for the Manhattan College, Civil and Environmental Engineering Department in Riverdale, NY, teaching a Construction Planning and Scheduling graduate level course.
