## But is AI an existential threat?

Well... let's ask AI, is it a Chihuahua or a Muffin?

Source: <https://www.metamaven.com/chihuahua-vs-muffin-comparison-computer-vision-apis/>

## Yes, but AI beats humans at specific tasks!

Let's look at chess... Grandmasters + AI beat AI alone

*After chess-playing AI programs became widely available, the combination of humans and chess-playing programs performed better than either did individually.*

[Forbes, 1/7/2022: Why Computer-Assisted Humans Are The Best Chess Players And What That Means For Technology Operations](#)

Our mission is to help people see  
data in new ways, discover insights,  
unlock endless possibilities.

# And Oracle is best positioned to deliver on the potential of AI for E&C

It's our overall mission...

Oracle's market-leading analytics and AI products

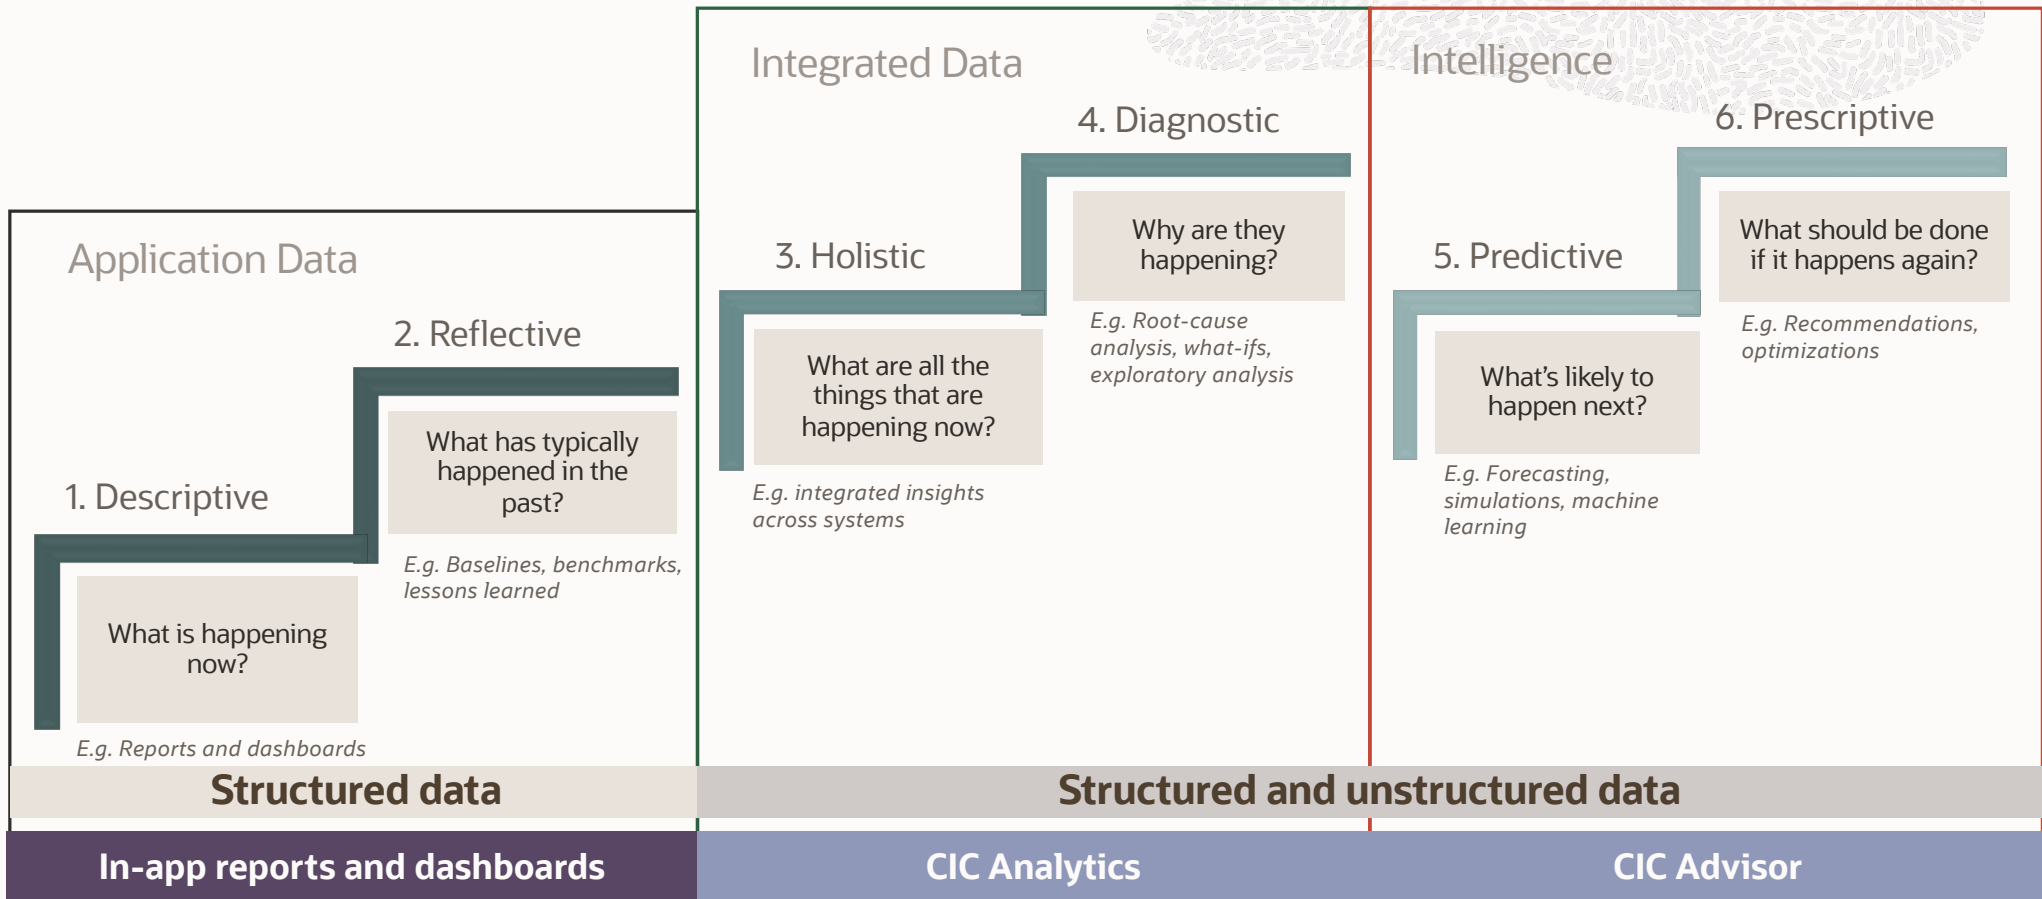

Tuned for construction and capital project delivery

Built with Oracle's military-grade security and privacy

# The Data and Intelligence Journey

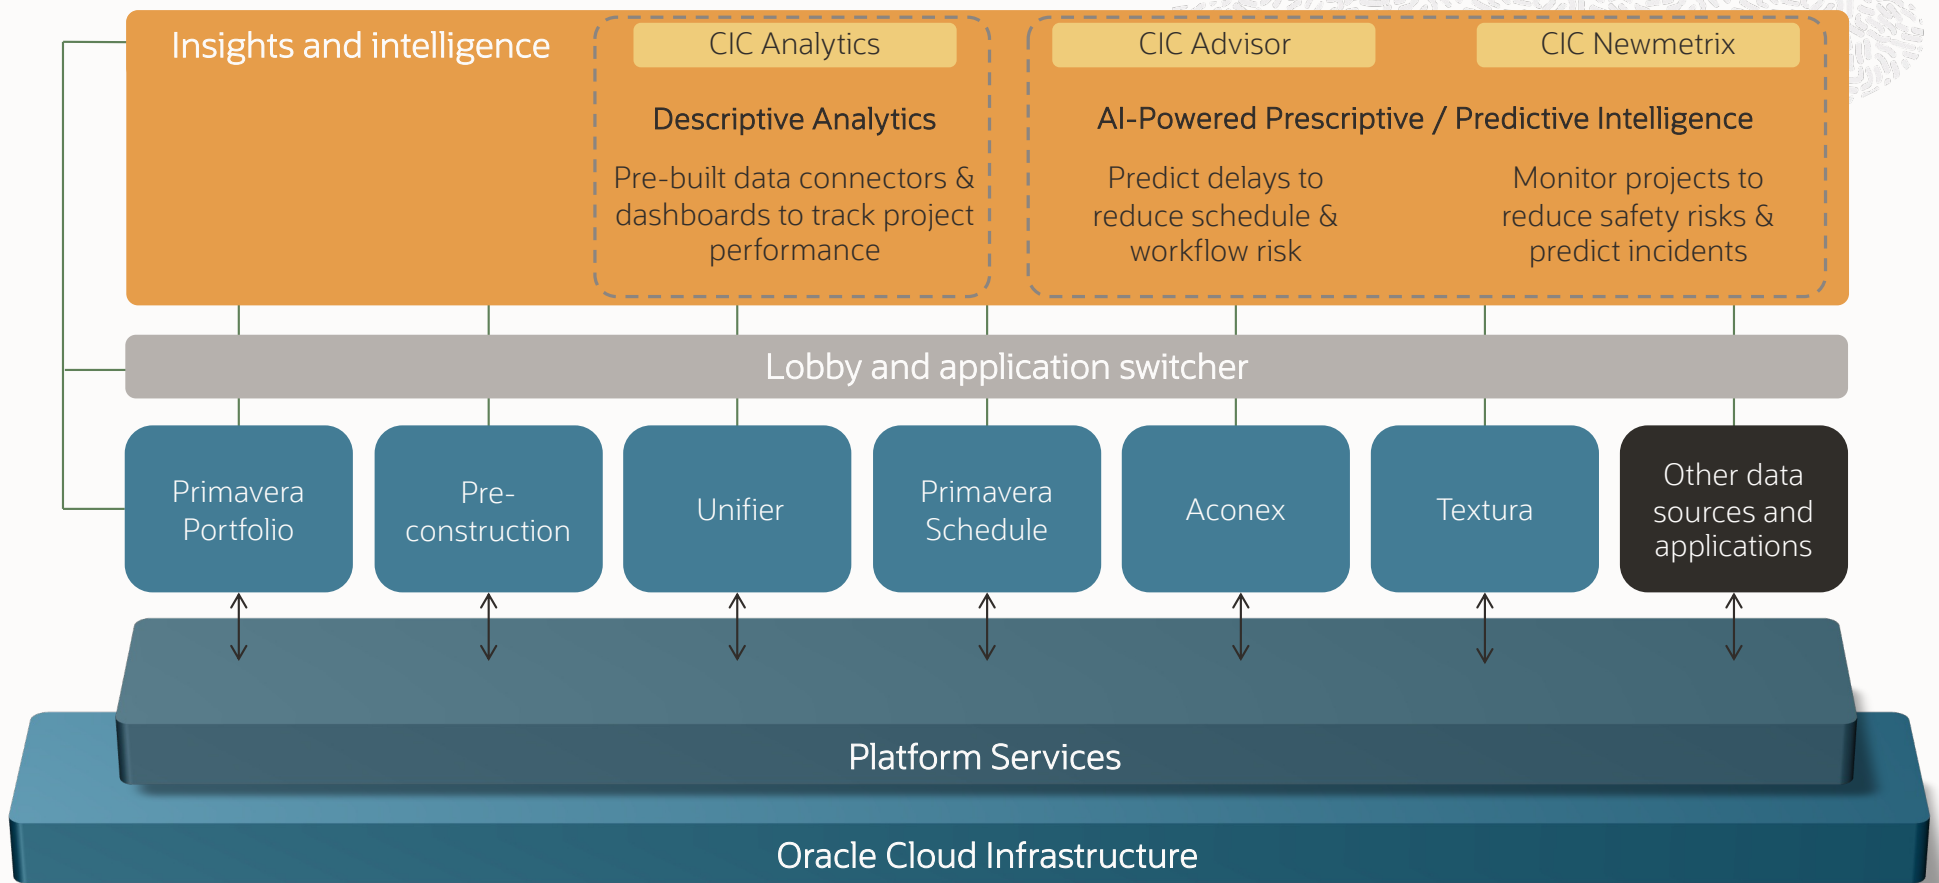

# We already have Power BI/Tableau/Qlik/etc.

## Faster Time to Value and a Lower Cost of Ownership

- ~ 1+ years of development effort to design the DW/DL
- Requires a SQL developer(s), Business Analyst(s), BI platform/tool administrator(s)
- Dashboard/report requirements are constantly changing requiring changes to the DW/DL
- Costs lots of time and money to plan, design, build and maintain

13	151874 - Frogs Rehabilitation	7
14	151674 - Cell Desian-Build	12

### Project Priorities & Actions

Priority	Reasons	Action Steps
	Labor: Foreman Ratio	Increase the number of formen as a portion of the total labor force. Target 3.3 or fewer worker-days per forman-day.
	Incidents: Wkly All Incident Rate	Raise awareness of recent incident(s) with all project employees. The project is 3.6 times more likely to have another incident this week.
	Observations: Worker Obs. Rate	Perform more observations in active work areas. Target at least 1 observation per 150 worker hours.
	Photos: Work at Height	Perform observations targeting work at height activities. Raise awareness of the increased risk associated with working at height with all employees working in the area.
	Observations: Avg. Risk Factor	Ensure that all hazards identified in observations from the past week have been addressed.
	Labor: Supervision Ratio	Increase employee presence on the project. Target 1 employee for every 14 worker-days (max).
	Labor: Safety Ratio	Increase the presence of safety staff on the project. Target a minimum of 1 safety rep. hour for every 6 worker-days reported on manpower logs (max).

## And one more thing...

Press Release

# Oracle to Deliver Powerful and Secure Generative AI Services for Business

*Oracle is uniquely positioned to deliver generative AI services spanning applications to infrastructure that help businesses solve today's most complex challenges*

*Oracle partners with Cohere to provide generative AI services*

**Austin, Texas—June 13, 2023**

Oracle today announced its plans to develop powerful, generative AI services for organizations worldwide. Oracle will provide native generative AI services to help organizations automate end-to-end business processes, improve decision-making, and enhance customer experiences, in collaboration with [Cohere](#), a leading AI platform for enterprise. Built on [Oracle Cloud Infrastructure \(OCI\)](#) and leveraging Oracle's unique Supercluster capabilities, Oracle generative AI services will span applications to infrastructure and aim to provide the highest levels of security, performance, and value in the industry.
